## Regional Refresher

## Course - ASI

Dear Postgraduate Residents and ASI members

The Association of Surgeons of India in its pursuit to promote academics has been arranging Regional Refresher Courses (RRC) in different zones over the past five years. This has well and truly been the most vibrant academic activity of ASI, with unprecedented participation from both trainees and members.

Postgraduate students selected through an MCQ test in the region are given common clinical problems and are well prepared by Professors/Mentors in their Institute. The virtual presentations at RRC with selected senior faculty from the region in attendance are conducted along the lines of MS/DNB exit examination. This is indeed an excellent platform for competitive assessment for the participating Resident. The interaction between candidates and faculty is a valuable learning exercise for participants.

With the ongoing COVID pandemic, public gatherings are unlikely to be permitted in the foreseeable future. We are planning RRCs to be held in a web based platform. The details of cases are enclosed herewith.

Trainees are requested to register using the attached form. The registered candidates alone would be allowed to participate in the RRC. Furthermore, they will also have the privilege of participating in all six RRCs, giving them a unique opportunity to hear the wisdom of examiners from different parts of India. The time & dates for all the RRCs would be intimated at the earliest.

Look forward very much to the pleasure of meeting many of you "virtually" at ASI's flagship Regional Refresher Courses.

Best wishes and kind regards.

Sincerely,

**Dr P. Raghu Ram**  
President

**Dr Santhosh John Abraham**  
Director, Academic Council
