

### **BIO DATA – DR. A TRIMURTY TAO**

I am an ASI life member , since 1985 , actively participating in all the ASI activities. I am an immediate past President ASI AP chapter and a retired Prof. of surgery and well aware of updating the teaching surgical skills to our P Gs in our curriculum. They should all become associate members, and present one paper or poster in the state or national conference, before Univ. exam.

All surgeons (including rural) should be well oriented with ' Endoscopy and Laparoscopic ' procedures, for which regular work- shops to be conducted by state chapters. In July 2018 we conducted a zonal surgical meet for two days at Vijayawada, which was a grand success.

I request all the esteemed surgical members to vote for me as a G C member, representing from ANDHRA PRADESH to give me a chance to serve our ASI up to your satisfaction.
